Letter to Potential Newtonville Camera Team Members

Hi there! We're hiring at Newtonville Camera, and I'd like to tell you a little about us and what we're looking for in a potential Newtonville Camera team member.

We are a real camera store.

Every one of our team members loves photography, and we love to share that love of photography with our clients. And Newtonville Camera is not your ordinary retail employment experience - we're not a mega-chain-store. We're an independent and locally owned, family business. Join our team and get paid to share your love of photography!

The first requirement for consideration is that you must love photography. You don't have to be a professional photographer, but you must at least enjoy taking pictures. You must have experience with digital photography (any additional experience with film photography is a plus).

The second requirement is that you must be able to be patient and capable of enthusiastically explaining photography concepts to clients who are new to photography, or who are looking to expand their photography capabilities.

The third requirement is that you must be a good communicator. You must excel at being able to explain to clients the value of the services, products, and accessories that we sell - and to be able to truthfully and knowledgeably explain why more expensive products and services are worth the extra expense.

The fourth requirement is that you must be a team-oriented and personable worker. We all pitch in to service our clients, fulfill orders, keep the store clean, improve the client experience, and improve our workspace.

The fifth requirement is that you must also be able to be independent and self-motivated. You arrive to work on-time - and you are eager to autonomously complete all tasks assigned to you - efficiently and with careful consideration.
